

BOS Received Notice On Increase By Approximately \$ 10,000,000 Of The Value Of An Existing Frame Agreement With A Strategic Customer In The Aircraft Industry

RISHON LEZION, Israel, November 10, 2008 /GLOBE NEWSWIRE/ B.O.S. Better Online Solutions Ltd. ("BOS" or the "Company") (NASDAQ:BOSC; TASE: BOSC) a leading provider of comprehensive Mobile and RFID solutions for the enterprise and of Supply Chain Solutions, announced that its U.S. supply chain division, Summit Radio Corp. ("Summit"), received a notice from a strategic Latin American customer engaged in the aircraft industry of an approximately \$10,000,000 increase to an existing frame agreement for the sale of components.

The initial agreement, announced on May 28, 2008, provides for a framework for orders by the customer potentially amounting to up to \$25 million during an initial five-year term (until 2012). Following the increase, the agreement provides for a framework for orders by the customer potentially amounting to up to \$35 million during the same period.

The contract may be extended for additional five-year terms.

Shmuel Koren, BOS's President and CEO said: "This is great news. The increase of the scope of the agreement by this strategic customer reflects our proven ability in providing comprehensive supply chain solutions as well as Summit's exceptional reputation, in products and service, amongst leading customers in the global aircraft and aerospace industry.

Andrew Levi, Head of Supply Chain Solutions Americas commented: "This addition to our agreement further emphasizes our increasing strength as a supply chain leader in the military aerospace industry, helping our customers in consolidating their vendor base and providing greater efficiency."

About BOS

B.O.S. Better Online Solutions Ltd. ("BOS") was established in 1990.

BOS's operations consist of:

- (i) Fully integrated Mobile and RFID Solutions that are offered either as stand alone products or as full Solutions combined of:

- (a) Hardware Devices – A Mobile and RFID Infrastructure with an automatic identification and data collection equipment based on RFID and barcode technology; and
